My 2/14/74 reporting Dan Rather on Mullen/CIA/Singapore, later NBC's Stern and CBS' Schoorr, says "this series of leaks has Bennett the CIA Man." This appears to have been from recollection, not written notes or tapes. Did you by any chance keep any of this on tape or transcripts? (I heard, taped and put tape back for re-use when Woodstein appeared at Nat Press Club today, aired NPR. They have both learned about money and the responsibilities it brings)
